Stone Benchtops and Splashbacks

Designed and developed from the ground up, Marbut Stone's manufacturing plant is the most automated facility in the Southern Hemisphere.

Through automation Marbut Stone is able to provide customers with consistent quality, precision finishes and millimetre perfect accuracy. So confident of this finish, we back it up with an industry first, 10 year manufacturing warranty. Automation also brings with it efficiency in manufacturing so, Marbut Stone can prove to be excellent value for money.

Features

Mitred Edge

A Mitred Edge gives a seamless front surface on 40mm+ edge tops, retaining the quality of your stone benchtops. No more disappointing visible glue lines running through the edge!

Other Suppliers

How we do it

Finished Seamless Mitred Edge

Mason Mitre Join

A legacy from the postform laminate industry, this high quality joining method for 40mm thick benchtops has proven over many years to provide a seamless join between benchtop pieces.

Standard Profiles

20mm Arris

Each Arris profile edge is 3mm.

40mm+ Arris

Benchtop Width

Due to structural reasons, we recommend against 20mm benchtops with an overhang greater than 250mm.

Benchtop Length

Due to sheet sizes, benchtops over 3000mm in length may require a join.

Other Profiles

20mm Pencil Round

Each Pencil Round profile edge has a 3.5mm radius.

40mm+ Pencil Round

20mm Bullnose

40mm Bullnose

20mm Half Bullnose

40mm Half Bullnose

Some profiles may incur a surcharge.

Edge Specification Types

Single Mitre

Double Mitre

40mm Lamination

We have three edge specification types to choose from.

Waterfall Ends/Box Vanities

Butt Join 'V'

Mitred

Often referred to as cascading, waterfall or apron ends. As a feature in your kitchen, these ends will add a contemporary feel to your island bench.

Recessed/Flushmount Sinks

Recessed sinks are always fitted flush with the stone benchtop.

Topmount Sinks

Topmount sinks are raised as they sit above the stone benchtop.

Drip Tray

Stone benchtop featuring grooved drip tray

Undermount Sinks

Marbut Stone's standard positioning of undermount sinks as per the above diagram, shows a small 3mm overhang of the stone benchtop. If the sink is supplied with fitting accessories (ie. chopping board or bins), the necessary sizing will be applied.
